DATE OF MEETING: 4 May 2021

PLACE OF MEETING: Virtual (teleconference)

LOG ENTRY SOURCE: Kevin Lee (ESMC)

COMMISSION ATTENDEES: Kevin Lee (ESMC), Hope Nesteruk (ESMC), Suad Wanna-Nakamura (HSPP)

NON-COMMISSION ATTENDEES: Contact ASTM for attendee list.

Meeting Summary:

Old Business

A vote was taken to change the name of subcommittee from Children's Folding Chairs to Children's Chairs and Stools. The vote was 13-1-0 in favor of changing.

The latest revision of the standard has been published and CPSC has been notified. CPSC staff updated the subcommittee regarding the status of the notification and update, which has not been voted on yet.

New Business

- Head entrapment – the subcommittee chair is aware of a new fatality and suggests forming a new task group, which CPSC staff joined.
- Single point suspended hanging children's chairs- the subcommittee agreed this type of product would be in the scope of the standard but will need to consider updating the standard's stability and structural integrity requirements to reflect this new design.
- Step stools- the subcommittee agreed children's step stools are not within the standard's scope and will continue to discuss adding an exemption for step stools.
