

CPSC STAFF MEETING LOG

Meeting Dates: 05/25/2021 & 05/26/2021

Location: Teleconference

Subject: UL STP 3300 - Service Communication Information Education and Entertainment (SCIEE) Robots - Task Group 1 (TG1)

Product: Artificial Intelligence

Prepared By: Vineed Dayal

Date of Log: 05/26/2021

Attendees: Contact UL for a complete list of attendees.

CPSC Attendees: Vineed Dayal & Zachary Goldstein

Meeting Summary:

Contact UL for more details of this meeting.

This two-day meeting was part of a series of TG1 meetings to address the STP's comments and concerns with the scope of the potential new voluntary safety standard for SCIEE robots.

The task group completed their review of the list of potential robots and determined if each should be considered in or out of scope of the standard.

The group spent the remainder of the time synthesizing the team's responses to task items assigned prior to the meeting. The assignments included developing definitions for several terms (i.e. Service, Robot, Outdoor use, etc.) and developing statements for exclusions for the standard (i.e. robots without safety implications, medical devices, on-road robots, etc.)

Staff continued to provide the STP expertise on technical concerns and on jurisdictional overlaps throughout the discussions.

TG1 did not complete their review of the assigned tasks. The PM plans to assign schedule at least two additional meetings during the week of June 7th, 2021.
