Subject: CSA Technical Subcommittee Meeting on Gas Ranges

Date: July 14, 2021

Location: Teleconference

Prepared By: Chen-hsiang Su ([csu@cpsc.gov](mailto:csu@cpsc.gov), 301-987-2529), July 14, 2021

CPSC Attendees: Scott Ayers and Chen-hsiang Su

Non-CPSC Attendees: Contact CSA for a list of attendees

Summary of Meeting:

Contact CSA for more details on this meeting.

This is a CSA gas range TSC task force meeting to review gas range data provided by the CPSC. Scott Ayers chaired the meeting.

The group reviewed and discussed the sample incident data set coded by all members. There were substantial discussions on “Range Type”, “Use Condition”, “Component”, and “Issue” categories. On the “Range Type” category, Scott Ayers indicated that he will request the product codes of the incidents data for facilitating the coding. The group agreed that additional selection keys and explanations be added in the data sheet for the categories discussed.

The group will go through each of the sample incidents in the next meeting.

The task force will next meet on August 11, 2021 from 2pm to 4pm ET.
