

**LOG OF MEETING
DIRECTORATE FOR ENGINEERING SCIENCES**

SUBJECT: Meeting of the ASTM F3159 Liquid Laundry Packets Data Task Group

DATE OF MEETING: October 7, 2021

PLACE OF MEETING: Virtual (teleconference)

LOG ENTRY SOURCE: Jill Hurley (ESHF)

COMMISSION ATTENDEES: Jill Hurley (ESHF)

NON-COMMISSION ATTENDEES: Contact ASTM for a full list.

SUMMARY OF MEETING:

The Data Task Group meeting for Liquid Laundry Packets was led by chairs, Kazue Takeuchi and Dr. Kevin Osterhoudt.

Members reviewed a report generated by Rocky Mount Poison Control in advance of the October 13th Subcommittee meeting. This report includes an update on Poison Control Center calls regarding Liquid Laundry Packets from July 2012 through December 2020. The report indicated that the overall exposures counts in 2020 were similar to the baseline period exposures. Discussion focused on this information and what suggestions the group can bring forward to the Main Subcommittee members regarding options for the Standard's renewal, revision, or withdraw. No consensus was reached.

The next meeting date is to be determined, depending on what is presented at the October 13, 2021 Main Subcommittee meeting.
