

Meeting: ISO/TC 181/WG 6 “Phthalate Plasticizers in Toys”

Purpose: Discuss the development on methods for ISO 8124-6– Phthalate Plasticizers in Toys

Meeting date and time: November 3rd, 4am-7am EST, virtual

Attendees: Members of the Technical Advisory Group (TAG) to ISO TC 181 on Toy Safety

CPSC attendees: Maricar Duque, Chemist, LSC Division

Meeting summary: Members met virtually to discuss the revision to ISO/TC 181/WG 6 particularly on the Composite Test Application for Toy Phthalates. The feasibility of composite test was discussed, mainly the experimental verification and computational analysis. The comments received have been reviewed in accordance with the agreed resolution. Revised draft for International Standard will be submitted for voting tentatively on February 2022.
