SUMMARY OF MEETING:

Mr. Rosati called the meeting to order. After introductions and the meeting agenda was approved, discussion on outstanding negative votes began. Mr. Rosati explained that all except one negative vote had been withdrawn. Ms. Kish explained that CPSC staff will not withdraw staff’s negative ballot because, as proposed, the new standard is not consistent with the Infant Sleep Products rule that becomes effective June 23, 2022. A lengthy discussion resulted, and one member recommended finding Ms. Kish’s negative persuasive, and withdrawing the whole standard. The subcommittee voted and agreed to ballot the motion to withdraw F3118. The subcommittee will continue to work on a standard to replace this standard, with the intent to create a standard with minimum safe sleep requirements to allow product innovation other than a bassinet but will wait to move forward on this work until after the challenge to the ISP rule concludes in the D.C. Circuit.

The meeting adjourned at 11:25 am.
