**SUMMARY OF MEETING:**

The task group continued to review comments and negatives on the ballot F24.61 (22-02) item number 2, Revision of F2970-20 Practice for Design, Manufacture, Installation, Operation, Maintenance, Inspection and Major Modification of Trampoline Courts.

Two task group members prepared independent summaries of comment areas. Both concluded that additional requirements for signage and area control need to be added to address concerns about the proposed performance trampoline requirements. A few task group members mentioned they had prepared additional requirements that might address these concerns, but the information had not made it into the ballot. The proposed requirements will be reviewed at a future meeting.

The task group will continue reviewing comments and negatives at the next task group meeting on July 14.
