

US Consumer Product Safety Commission Log of Meeting

Subject: CANENA UL/CSA 60335-2-40 Working Group on Flammable Refrigerants in HVAC systems

Date: August 19, 2022

Location: Teleconference

Prepared By: Scott Ayers (sayers@cpsc.gov, 301-987-2030), August 19, 2022

CPSC Attendees: Scott Ayers

Non-CPSC Attendees: Contact The Air-Conditioning, Heating, and Refrigeration Institute (AHRI) for a list of attendees

Summary of Meeting:

Contact AHRI for more details of this meeting.

This was a meeting for the CANENA working group looking to update UL/CSA 60335-2-40 from the current 3rd edition to the 4th edition. The next edition will be based on IEC 60335-2-40 6th Edition. The group is addressing comments from a ballot that closed in June 2022. The group is targeting completing comment resolution for a recirculation ballot in late April or early May. The group has met regularly since June, with in person meetings. Several virtual meetings have been scheduled to help meet the group's target timeline. This was the first meeting staff attended since the ballot closed in June.

The group focused on addressing the remaining editorial changes and discussed possible technical changes that could be addressed as part of the first amendment to the 4th edition.

The group completed review of the comments and the chair will forward the draft document to UL and CSA for publication. Staff expressed support of the final proposed new draft. The chair expects UL will need about 8 weeks to publish the 4th edition, placing the anticipated publication sometime in middle to late October.

The group will look to start meeting in October to discuss the first amendment.
