

LOG OF MEETING

DIRECTORATE FOR ENGINEERING SCIENCES

SUBJECT: ASTM F15.29 F1487 Public Playground Subcommittee's Play Mound Task Group Meeting

DATE OF MEETINGS: August 23, 2022

LOCATION: Teleconference

LOG ENTRY SOURCE: Kevin Lee

COMMISSION ATTENDEE(S): Kevin Lee

NON-COMMISSION ATTENDEES: Contact ASTM for a complete list of attendees

SUMMARY OF MEETING:

Background: The ASTM Subcommittee F15.29 on Playground Equipment for Public Use formed a task group (TG) to develop performance requirements for play mounds.

Summary:

CPSC staff suggested that requirements for play mounds include the following: use zone, maximum slope, surfacing, and no trip hazards. The task group agreed with CPSC staff's suggestions.

The TG discussed various aspects that should be considered when developing and installing a play mound, including: use zone, playground surfacing, mound slope, and fall height. The TG created a document of suggestions for future review by all members of the TG.

Next Steps: The TG will vote and provide feedback on the list of suggestions. The TG will hold two meetings before the November subcommittee meeting.
