COMMISSION ATTENDEES: Tim Smith (ESHF), Mark Eilbert (LSM), Ashley Johnson (HSPP), Celestine Kish (ESHF), Susan Proper (EC), and Suad Wanna-Nakamura (HSPP)

NON-COMMISSION ATTENDEES: Contact ASTM for attendee list

SUMMARY OF MEETING:

This meeting of the ASTM Infant Feeding Support Products Scope task group was led by task group co-chair, Bill Baxter. The goal of the meeting was to finalize the scope section of the proposed standard for possible presentation to the subcommittee in during the October subcommittee meeting. Mr. Baxter shared the draft of the scope that came out of the prior task group meeting and sought feedback from the task group. The task group agreed to two minor changes to the language for clarity and concluded that the draft scope was ready for presentation to the subcommittee.

Mr. Baxter stated that future meetings of the task group will focus on definitions to be added to the proposed standard, and that this task group would coordinate with the Performance Requirements task group for that activity. Mr. Baxter stated that before the next meeting, he would pull together possibly relevant definitions from other standards for the task group's consideration. He then concluded the meeting by stating that he would forward the final, clean draft of the scope document to the task group.
