FUTURE MOTION REFUSES TO RECALL DEADLY ONEWHEEL SKATEBOARD

NOVEMBER 16, 2022

Immediately stop using all Onewheel electric skateboards—they are not worth dying for.

Future Motion's Onewheel self-balancing electric skateboards can eject their riders, causing serious injury and death. At least four people have tragically died from traumatic head injuries.

CPSC asked Future Motion to stop selling the Onewheel and to advise its customers not to use this product. The company refused. Future Motion is unwilling to take appropriate action to fix a product hazard that has killed people.

CPSC had to take action and issue this warning to not buy or use this product.
