FILING DATE: 08/07/2023

CPSC ATTENDEE(S): Andrew Trotta, ESEF

NON-CPSC ATTENDEE(S): Please contact NFPA staff (ccoache@nfpa.org) for the list of attendees

Summary of Meeting:

This was the third and final meeting of Task Group (TG) 2 to discuss public inputs (PIs) for the First Draft of the 2026 edition of NFPA 73 – *Standard for Electrical Inspections for Existing Dwellings*. The Technical Committee (TC) Chair formed two task groups to preview the PIs and draft a proposed disposition to facilitate the discussions when the full NFPA 73 TC meets. NFPA 73 provides inspection and testing procedures and practices for evaluating the safety of installed electrical systems within and associated with existing dwellings. TG 2 discussed 6 PIs for revisions to Chapter 4 of NFPA 73 and reviewed other outstanding items that had been previously identified.

Next Steps:

Present TG proposed actions to full TC on August 2 and 3, 2023
