Summary of Meeting:

This was the third meeting of CMP17 TG 1 to discuss public inputs (PIs) for the First Draft of the 2026 edition of the *NEC*. TG 1 is covering PIs under Article 422, Appliances. All the actions of the TG are preliminary, to be presented for discussion and action by the entire CMP17 in January 2024 at the First Draft meetings. At this 11/6 meeting, the TG picked up discussion on a panel statement to support the action to resolve the PI (2484) regarding a paddle ceiling fan hanging system that achieved TG consensus at the prior meeting. The TG also discussed PIs on Article Subdivision 422.13, Storage-Type Water Heaters and Article Subdivision 422.31, Disconnection of Permanently Connected Appliances before adjourning.
