

## MEETING LOG

**SUBJECT:** *National Electrical Code (NEC-NPA70) Code Making Panel (CMP) 2 task group (TG) 1*  
teleconferences to discuss preliminary actions on public inputs to the first draft for the 2026 edition of the NEC

**FY 24 OP PLAN ENTRY:** National Electrical Code

**DATE OF MEETING:** 12/01/2023 and 12/05/2023 (Originally scheduled for 12/06/2023)

**LOCATION OF MEETING:** Virtual

**CPSC STAFF FILING MEETING LOG:** Douglas Lee, Office of Hazard Identification and Reduction (EXHR)

**FILING DATE:** 01/03/24

**CPSC ATTENDEE(S):** Douglas Lee (EXHR)

**NON-CPSC ATTENDEE(S):** Thomas Domitrovich- CMP 2 TG 1 Chair, National Electrical Manufacturers Association, Eaton

Please contact National Fire Protection Association staff liaison Jeffrey Sargent (JSargent@nfpa.org) for the list of attendees

### Summary of Meeting:

During these meetings, CMP 2 TG 1 met to discuss public inputs (PIs) for the First Draft of the 2026 edition of the NEC. The chair for CMP 2 set up three task groups to review public inputs tied to specific sections under CMP 2's purview to discuss and develop preliminary panel actions to be presented to the full committee at the First Draft meetings in January 2024. The actions are preliminary and only serve as a starting point to facilitate full panel discussions and action. This task group covers Article 210 Branch Circuits, including ground-fault circuit interrupters and CMP 2 defined terms.

During the meetings, CPSC staff continued to support TG actions on PIs that would address interoperability issues with GFCIs. Staff also supported proposals to clarify existing requirements and exceptions for GFCIs in section 210.8 Ground-Fault Circuit-Interrupter Protection for Personnel.

### Next Steps:

Staff will participate in the First Draft meetings of the CMP 2 full committee in Charleston, South Carolina from January 15, 2024, through January 20, 2024.
