

MEETING LOG

MEETING TITLE/SUBJECT: CSA Outdoor Cooking and Illumination Technical Subcommittee (TSC) Meeting

OP PLAN ENTRY: LP Gas Appliances

DATE OF MEETING: 3/13/2024

LOCATION OF MEETING: Virtual

CPSC STAFF FILING MEETING LOG: Scott Ayers

Filing Date: 3/14/2024

CPSC STAFF ATTENDEE(S): Scott Ayers (ESEF) and Chen Su (ESEF)

NON-CPSC ATTENDEE(S): Contact CSA for a complete list of attendees.

Summary of Meeting:

Contact CSA for more details on this meeting.

This was a regular meeting of the TSC. The agenda focused on reviewing ten Requests for Change (RFCs) for possible inclusion in the proposed first amendments to ANSI Z21.89 and ANSI Z21.58. The RFCs included proposed changes to harmonize with new requirements in component standards, clarified steps in test procedures, harmonize smart enabled requirements between the two standards, and fix editorial issues. The TSC discussed clarifying “outdoor spaces” but could not reach consensus and instead formed a working group to address the issue.

CSA is no longer accepting proposed changes for the first amendments and will indicate a publication schedule soon.

The TSC also reviewed work on hydrogen blending in natural gas. The Technical Committee and decided that the current test gases used in the standards cover blends of hydrogen in natural gas up to 5% by volume. Some participants were concerned that some jurisdictions are rumored to have blends above 10%, although that is not known for certain. Staff provided an overview of some of the general concerns and the need to get many stakeholders involved.

Next Steps:

Staff will review the proposed changes in the first amendment when CSA makes them available.
