

MEETING LOG

SUBJECT: ASTM F15.18 Non-Full-Size (NFS) Cribs and Play Yards Suffocation Hazard Pictogram Task Group Meeting

FY 24 OP PLAN ENTRY: Non-Full-Size Cribs and Play Yards

DATE OF MEETING: 4/4/2024

LOCATION OF MEETING: Virtual

CPSC STAFF FILING MEETING LOG: Stephen Harsanyi (ESHF)

FILING DATE: 4/19/2024

CPSC ATTENDEE(S): Ashley Johnson (HSPP), Frederick DeGrano (ESMC), and Stephen Harsanyi (ESHF)

NON-CPSC ATTENDEE(S): Contact ASTM for the attendee list.

Summary of Meeting:

The ASTM F15.18 NFS Cribs and Play Yards Suffocation Hazard Pictogram Task Group convened to discuss potential pictograms and safety messaging to be added to the suffocation hazard warning label required in ASTM F406, *Standard Consumer Safety Specification for Non-Full-Size Baby Cribs/Play Yards*. The task group reviewed new iterations of pictograms and draft language for the related message panel. Through the latest iterations, the task group chair sought to more clearly demonstrate and describe the suffocation hazard associated with pillows, soft bedding, and putting infants to sleep on a surface that is not flat and firm. CPSC staff recommended minor formatting changes to the message panel, consistent with recent revisions to other juvenile product standards. CPSC staff also recommended that the signal word panel should not extend across the symbol panel; a change that would enable the use of larger illustrations.

Next Steps:

The task group plans to share the draft pictogram and message panel with the ASTM F15.58 subcommittee in the next subcommittee meeting, which is currently scheduled for May 21, 2024, from 10:30 AM to 12:00 PM, ET.
