SUMMARY OF MEETING:

The purpose of this meeting was to discuss comments and negatives received on the new draft standard on Weighted Blankets Intended for use by Children, F15.74 ASTM, *Ballot Report F15 (24-10, item 1.)* The ballot was issued on May 3, 2024, and closed on June 6, 2024. The meeting was led by ASTM subcommittee Chair, Ms. Kathleen Huddy.

The subcommittee reviewed only two of the many lengthy comments and negatives received to the draft proposed standard. To address the comments in a time efficient manner, a member of the subcommittee proposed that the balloted version of standard be posted in a SharePoint file and those who voted negative or made comments add their changes to this document.

To move the process forward, Ms. Lynyak, (Manager of the Technical Committee Operations at ASTM) posted the document in a SharePoint file immediately after the meeting was adjourned. Included were instructions for how voters, commentators, and others can review and add comments or changes to the document.

The next meeting date, to be determined.
