### **Summary of Meeting:**

The Northeast CO Alliance (the Alliance) is a group of organizations focused on CO safety in general and, specifically, in Maine, Vermont, Connecticut, and New Hampshire. In October, the Alliance held an in-person in Concord, NH.

This meeting focused on discussions on the Summit. Participants shared their take-aways other ideas for next steps. Additionally, Vermont and New Hampshire discussed the CPSC CO Grants that each state received. CPSC staff gave a brief overview of the grant program and discussed learning how the educational programs of each recipient went, after their programs finish. Additionally, stakeholders discussed developing a training program for service technicians; Vermont has a program, and New Hampshire is trying to develop a program, but not many other states are known to have similar programs.

### **Next Steps:**

Staff will attend future meetings as able.
