Filing Date: 2/26/2025

CPSC STAFF ATTENDEE(S): Chen Su (ESEF)

NON-CPSC ATTENDEE(S): Contact CSA for a complete list of attendees.

Summary of Meeting:

Contact CSA for more details about this meeting.

This was a meeting of the TSC. The agenda focused on reviewing action items and open items submitted by the working group from ANSI Z21.97/CSA 2.41. The meeting was requested by CSA.

CPSC staff monitored the TSC meeting. The TSC went through approval of the previous meeting, the new draft agenda. The TSC also reviewed one action. The question raised by a stakeholder was on wind guard application, the TSC decided that when an outdoor fireplace/firepit uses small glass panels to provide pilot/flame protection, they do not represent the glass viewing area surface and should only be required to meet the glass panels test requirement to ensure the material is appropriate for use.

The TSC continued to review common items and other business. CPSC staff did not stay for the entire meeting.

Next Steps:

The CSA will send out a survey to decide the next meeting date.
