Summary of Meeting:

Vision 20-20 Strategy Work Group 5 is a working group focused on codes and standards with a mission to reduce fire losses by refinement and application of codes and standards that enhance public and firefighter safety and prevent property losses.

Participants discussed the progress of proposed changes to NFPA 1, the Fire Code related to home oxygen therapy. Some stakeholders have pushed for requirements that home oxygen therapy include devices to limit the potential of fire spread. Staff provided the group updates on some of their work including accidental range activation, fire extinguishing products, child burns, and wildfire. Several state participants discussed work occurring in their states. A participant discussed the recent social media "Chromebook challenge" where students are purposely shorting the USB port on their school computers to cause smoke and fire events.

Next Steps:

The workgroup meeting will be on July 3, 2025.
