OBSERVERS	AFFILIATION

MEETING NOTES:

Participants started with introductions. The Amazon representatives expressed their intention to work together more effectively and efficiently with CPSC. They shared their desire to understand what CPSC needs in terms of data and how they can share between each other. Amazon shared the current challenges faced when responding to sellers requesting information. Amazon shared their proposal for a new portal to replace their current email inbox communication method. Advantages of the portal and the process of records were discussed (seen in attached PowerPoint). The Amazon representatives shared the categories of data they collect. They also described the process of analyzing their data and the implementation of AI. The Amazon representatives expressed their desire for open dialogue with CPSC to notify Amazon of what information should be flagged and shared in real time.
