

MEETING LOG

MEETING TITLE/SUBJECT: CSA Technical Subcommittee (TSC) Meeting on General Requirements for Gas Appliances

OP PLAN ENTRY: [Not on the FY 26 Op Plan]

DATE OF MEETING: 4/1/2026

LOCATION OF MEETING: Virtual

CPSC STAFF FILING MEETING LOG: Scott Ayers (ESEF)

FILING DATE: 4/2/2026

CPSC STAFF ATTENDEE(S): Scott Ayers

NON-CPSC ATTENDEE(S): Contact CSA for a list of attendees

Summary of Meeting:

Contact CSA for more details about this meeting. The CSA Z21/83 Technical Committee formed a new TSC to develop and maintain a standard with the common and general requirements for all gas-fired appliances under the Z21/83 umbrella, such as gas ranges, gas furnaces, and gas grills. This common standard could incorporate safety requirements, such as related to carbon monoxide, that would apply to all gas-fired appliances. The TSC began meeting in March 2023. CSA intends the first edition of the general standard, designated Z21.0, to copy existing requirements from the appliance standards, but not change or add new requirements. The future editions of the common standard would then potentially modify requirements that would apply to some or all gas-fired appliances.

This meeting focused on reviewing requirements in the marking section of the proposed document. Staff monitored the discussion on labeling conversation kits and whether a group or series of models instead of listing each model number is required. The group could not reach consensus and will resume the discussion at the next meeting.

Next Steps:

Staff will attend upcoming meetings as able.
