Summary of Meeting:

Vision 20-20 Strategy Work Group 5 is a working group focused on codes and standards with a mission to reduce fire losses by refinement and application of codes and standards that enhance public and firefighter safety and prevent property losses.

The Chair provided information on the upcoming meetings and workshops related to Codes and Standards, specifically related to fire and egress during fire. CPSC staff provided an update on staff's work on fire blankets and development of standard for the classification of products in the defensible zone of a house in WUI communities. A member of the Colorado state fire marshal's office provided an update on the implementation of the revised WUI code within Colorado. One participant raised energy and fire safety concerns about the mega and multiple data centers built across the country noting the lack of fire codes and standards for data centers. Another participant discussed the newly formed ANSI Consumer Information Forum and solicited volunteers from the fire safety group.

Next Steps:

The next workgroup meeting will be on June 11, 2026.
