### **Summary of Meeting:**

Vision 20-20 Strategy Work Group 5 is a working group focused on codes and standards with a mission to reduce fire losses by refinement and application of codes and standards that enhance public and firefighter safety and prevent property losses.

Participants from Massachusetts, North Carolina, New York City, and other locations discussed issues affecting their jurisdictions. Staff discussed considerations that building code officials evaluate when approving indoor play structures. Most participants do not get involved in those determinations, but one participant discussed several other issues related to indoor play areas including separation from other hazards (such as lithium-ion go-karts and in adjacent occupancies), merchants that both sell play structures and rent the sales space out on weekends, and changing occupancy classifications for facilities.

### **Next Steps:**

The next workgroup meeting will be on September 3, 2026.
