

MEETING LOG

MEETING TITLE/SUBJECT: CANENA UL/CSA 60335-2-40 Labeling Working Group Meeting

OP PLAN ENTRY: Flammable Refrigerants

DATE OF MEETING: 8/19/2026

LOCATION OF MEETING: Virtual

CPSC STAFF FILING MEETING LOG: Scott Ayers

FILING DATE: 8/20/2026

CPSC STAFF ATTENDEE(S): Scott Ayers (ESEF)

NON-CPSC ATTENDEE(S): Contact Azora Consulting for a complete list of attendees

Summary of Meeting:

Contact Azora Consulting for more details of this meeting. This is a working group formed from the main CANENA Technical Harmonization Committee (THC) for UL/CSA 60335-2-40 focused on labeling and marking of appliances that use A3 refrigerants. Although UL/CSA 60335-2-40 covers HVAC systems, this group intends to consider labeling and markings on products covered by UL/CSA 60335-2-28 and UL/CSA 60335-2-89 that use A3 refrigerants.

Because the applications differ between commercial, industrial, and residential, Staff suggested that the working group develop generic labels with common pictogram and safety information. The working group spent time discussing the appropriate signal word, “danger”, “warning”, or “caution”. Many participants felt that A3 refrigerants are a greater hazard than A2L and may require a more severe warning.

Staff could not stay in the meeting until the end.

Next Steps:

The next working group meeting will be on Wednesday September 9, 2026, at 3pm.
