

MEETING LOG

SUBJECT: ANSI-Accredited U.S. TAG to ISO/TC229 Meeting Log

FY26 OP PLAN ENTRY: Nanotechnology

DATE OF MEETING: 7/13/2026

LOCATION OF MEETING: Virtual

CPSC STAFF FILING MEETING LOG: Matthew Cho (HSTR)

FILING DATE: 7/16/2026

CPSC ATTENDEE(S): Matthew Cho (HSTR), Richard Brown (LSC)

NON-CPSC ATTENDEE(S): Contact ANSI for the full attendee list.

Summary of Meeting:

- On July 13, 2026, ANSI-accredited U.S. Technical Advisory Group (TAG) to ISO/TC 229 (Nanotechnologies) had a meeting to review discussions and action items taken during ISO/TC 229 working groups and *ad hoc* group meeting held in Sydney, Australia from May 18 to 22, 2026.
- Individual working group chairs reported the discussion points and action items. The WG3 (Health Safety and the Environment) chair shared that projects of ISO/TS 13121 PG7 (Nanotechnologies – Nanomaterial Risk Evaluation) and ISO/TS 5265 PG37 (Nanotechnologies – Method for characterizing and quantifying nanomaterials released from wood products) may need new project leaders. CPSC retirees previously led these projects, and these individuals might not continue in these roles. CPSC staff indicated willingness to discuss taking on project leader roles if the original project leaders are stepping down. The WG3 chair stated he needed to discuss this issue with the coordinator of ANSI-accredited US TAG to ISO/TC 229. The WG3 chair also indicated that CPSC staff would be invited to the discussion on this matter.
- WG4 (Materials Specifications) also presents an opportunity for CPSC involvement. CPSC staff asked to be added to the mailing list for WG4 updates as well.
- CPSC staff suggested during the meeting that CPSC would be happy to collaborate with other organizations to find remedies for any consumer product-associated safety concerns.
- ANSI-accredited TAG to ISO/TC229 meeting will be held in Washington, D.C. (hybrid mode) in the week of September 21, 2026. A poll to select the dates will be disseminated.

Next Steps:

The ISO/TC229 Nanotechnologies Plenary meeting will be held in Queretaro, Mexico October 19 to 23, 2026. Staff plans to attend this meeting virtually.
