

## US Consumer Product Safety Commission Log of Meeting

Subject: ASHRAE 15 Working Group on Flammable Refrigerants harmonization across multiple standards

Date: April 15, 2020

Location: Teleconference

Prepared By: Scott Ayers ([sayers@cpsc.gov](mailto:sayers@cpsc.gov), 301-987-2030), April 15, 2020

CPSC Attendees: Scott Ayers

Non-CPSC Attendees: Contact ASHRAE for a list of attendees

### Summary of Meeting:

This working group has been established to recommend possible changes to harmonize requirements and remove inconsistencies between ASHRAE 15, ASHRAE 15.2P, and UL/CSA 60335-2-40. While no voting will occur in this meeting, the group will look for general agreement from all participants.

The last meeting was December. The working group plans to meet every three weeks for the foreseeable future until work is complete.

Most of the meeting focused on how the working group will operate. The working group established an order of topics to work on, starting with detection. Starting with the next meeting, the group will start working on detection; once complete the group will send recommendations to the appropriate standards body and move to the next topic.

The group established a regularly occurring meeting on every third Wednesday from 2pm to 5pm ET.
