MEETING LOG

SUBJECT: ASTM F15.75 Connected Products Subcommittee (SC) Meeting

FY 25 OP PLAN ENTRY: Internet of Things (IoT)/Connected Products and Artificial Intelligence (AI)

DATE OF MEETING: 6/5/25

LOCATION OF MEETING: Teleconference call

CPSC STAFF FILING MEETING LOG: Simon Lee, Jr.

FILING DATE: 7/14/25

CPSC ATTENDEE(S): Simon Lee, Jr., ESEF, Suad Wanna-Nakamura, HSPP

NON-CPSC ATTENDEE(S): For a complete list of attendees, please contact Molly Lynyak at ASTM.

Summary of Meeting: The SC chair reviewed results of a 10-question survey sent to the SC members to determine the direction of possible revisions to ASTM *F3463-24 Standard Guide for Ensuring the Safety of Connected Consumer Products.* The survey topics were generated from various previous, staff participated, TG and SC meetings. Staff asked for clarification on certain questions from the survey on topics such as Poor Pairing Functionality and Over Reliance on Monitoring/Tracking Devices. The SC had possible updates for the F3463 after further discussions on those topics. Staff recommended documents that could be used for reference materials in F3463's appendix for the survey questions on Supply Chain Stakeholders and Cybersecurity Regulations/Standards.

Next Steps:
The next SC meeting will take place in September 2025. The ASTM F3463 TG chair will schedule future TG meetings to discuss in more detail the results of this SC and the survey results' discussions. The SC chair will also invite a member from the disabled community as a possible future SC participant, which came from a discussion held at the International Consumer Product Health and Safety Organization (ICPHSO) 2025 Annual Meeting.
