### **Summary of Meeting:**

This committee is responsible for reviewing all PHTA standards that are revised or created and any additional American National Standard (ANS) work products.

At this meeting, staff monitored the committee's work. The focus of the meeting was on the work being conducted to update PHTA-11, Water Quality in Public Pools and Spas. The committee reviewed the remaining change requests for PHTA-11 that have not been approved yet by the Standard Writing Committee (SWC). The PHTA standards development process was discussed with respect to the revision of PHTA-11 and its current timeline. The ANSI public comment period is expected to open in September 2025 with a publication in March 2026. Since PHTA-11 is under continuous maintenance, as soon as the update to PHTA-11 is published, the SWC will begin to address change requests submitted for the next update to the standard.

### **Next Steps:**

CPSC staff plans to attend the next virtual meeting of the PHTA SCC, which is scheduled for October 23, 2025.
