Blake Pavlik, PHTA staff

Contact PHTA/ANSI for a full list of attendees.

MEETING SUMMARY:

The antitrust PHTA documents were reviewed. PHTA Standards Consensus Committee (SCC) Materials Guide and agenda were discussed. The purpose for the SCC meeting was to discuss PHTA procedures for ANS voluntary standard processes.

There were many applications for membership in PHTA SCC and several of the applications were approved. There was an update on PHTA sponsored standards, including ANSI/APSP/ICC-4 American National Standard for Aboveground/On ground Residential Pools and ANSI/APSP/ICC-5 2011 American National Standard for Residential Inground Swimming. Both standards were reviewed as a whole document and will be published as a new revision in 2023. ANSI/APSP/ICC-16 2017, which has performance requirements currently incorporated and succinct with VGB.

The PHTA voluntary standard process was discussed including the tasks of the standard writing committee, the standard technical committee, and the standard consensus committee.

Next steps:

There is no scheduled next meeting for the SCC. The voluntary standard development process will continue with the individual standard writing committees.
