Summary of Meeting:

Staff monitored a meeting of the ASHRAE Standing Standard Project Committee (SSPC) 15 Subcommittee 15.2 for Residential Applications. This subcommittee is responsible for maintaining the ASHRAE 15.2 standard.

The subcommittee wants to separate from the ASHRAE 15 committee, however some internal ASHRAE issues remain. The subcommittee will search for more non-producers to join and achieve a more balanced membership before separate for the ASHRAE 15 committee.

Participants discussed the possibility of including altitude adjustments. More work is needed, but the subcommittee is still interesting in continuing to pursue these potential changes.

The subcommittee discussed proposed changes to the International Mechanical Code that could affect HVAC equipment. Several participants will attend the hearings next week in Orlando.

Next Steps:

Staff will participate in future ASHRAE 15 SSPC and ASHRAE 15.2 working group meetings as able.
