SUMMARY OF MEETING:

Background: ASTM WK70724 is a draft new voluntary standard for commercial electric-powered scooters (e-scooters) for adults. The task group was formed in January 2020 and CPSC staff are active participants of this task group. The task group divided into smaller working groups to develop the requirements of specific sections.

Summary: The task group met to discuss the status of the draft adult ride-share e-scooter standard. The task group also discussed the children's e-scooter standard that is up for renewal. The task group intends to update the children's e-scooter standard simultaneous to development of the adult ride-share e-scooter standard.

Next Steps: The task group chair will review the standard for formatting and numbering, then will provide ASTM with the draft for ballot. CPSC staff will help update the introduction to the children's e-scooter standard. Staff will continue participating in sub and main task group meetings.
