**COMMISSIONER PETER A. FELDMAN**

**STATEMENT OF COMMISSIONER PETER A. FELDMAN  
ON NOVA ORTHO-MED, INC., CPSC FILE NO. RP220110 ADULT PORTABLE BED  
RAILS CORRECTIVE ACTION PLAN (CAP)  
DECEMBER 19, 2022**

I support this CAP, but with reservations. It is the unfortunate reality of current supply chain constraints that a remedy is not immediately available to consumers. Notice to consumers, even when there is a delayed remedy, will allow them to make informed decisions that best suit individual needs. Simply discontinuing use of this product is not without its own risk. Accordingly, I would urge consumers to consult with caregivers or medical professionals on how best to proceed in the interim before a remedy becomes available.
