

CPSC Guidance and HTS List for the Electronic Filing (eFiling) of Certificates of Compliance

APRIL 2026

The guidance and list below are provided to assist the trade community, namely importers and brokers, with complying with CPSC’s [eFiling](#) requirement.

Below is a list of approximately 600 Harmonized Tariff Schedule (HTS) codes that CPSC believes are likely to include a product subject to a mandatory standard or are otherwise deemed high-risk. However, it is important to note that it does not encompass all HTS codes where an electronic certificate may be required.

The importer is responsible for eFiling a certificate whenever required. The list below seeks to assist the trade community in understanding when CPSC and CBP will coordinate to flag specific HTS codes, or when a voluntary disclaim message may be filed, which may benefit an importer’s risk score in CPSC’s system.

The trade community is also encouraged to review CPSC’s [1USG Messaging guidance](#), as any entry with an eFiled certificate (a CPSC PGA Message Set) will be subject to the 1USG Messaging process. Beyond the products likely subject to certification, and therefore eFiling, there are some additional products not subject to certification where entries will still undergo the 1USG messaging process – please see the messaging guidance document for those product categories.

Product Category	HTS Chapter(s)
