Summary of Meeting:

Contact CSA for more details on this meeting.

The TSC reviewed editorial comments to the next edition of ANSI Z21.89 / CSA 1.18 *Outdoor Specialty Gas Appliances*. Staff monitored the TSC activities.

The TSC reviewed the proposed editorial changes for Section 15.5 *Orifice and Orifice fittings*. Then, the TSC discussed a public comment about the low wind speed test in Section 5.25 and CPSC staff monitored the discussion on the public comment. The TSC decided to remove the clauses pertaining to low wind fire testing.

The next meeting was not scheduled.
