"Finger painting with non-toxic, mess free (i.e., clear gel fingerprint only activated on special paper) is appropriate for children.
What two?

Agree this is unclear

Refers to both the finger paint and gel board. Clarified this in the sentence.

ropriate at this age. Children can also hold tablets in their lap that have gel inside and can make designs usin

g their finger or a stylus. Using fingers to make designs using either fingerpaint or a tablet filled with gel is a

appropriate at this age because it accommodates limited fine motor skills. "
