C. SYSTEM APPLICATION/GENEI				
		ucore cor at -	aco to orosta si	
1. Does this system contain any personal information about	This is a third party private website where with a user id in which they can choose to			
individuals?		with a user id, in which they can choose to share limited information about themselves. The information is publicly available to other users of <u>www.etsy.com</u> but		
(If there is NO information collected,	is not collected by nor in the possession of the federal government.			
maintained, or used that is identifiable to		9		
the individual, the remainder of PIA does				
not have to be completed.)				
2. Is this an electronic system?	Yes			

1. What categories of individuals are	Public	
covered in the system? (public,	Public	
employees, contractors)		
2. Generally describe what	No information will be collected	
data/information will be collected in the system.		
3. Is the source of the information from	Taken from the user id at <u>www.etsy.com</u> . The data is not collected but rather used	
the individual or is it taken from another source? If not directly from individual, then what other source?	only for the purpose of "messaging" the other user while logged into the third party website.	
 4. How will data be checked for completeness? 	It will not be checked. If outreach is appropriate, the CPSC user will send a message to the user. If the user does not respond or the account is not active, the CPSC user	
	will abandon the efforts to contact the user.	
 Is the data current? (What steps or procedures are taken to ensure the data is current and not out-of-date?) 	All data is maintained by the third party website owner. The CPSC does not propose to take any steps to ensure that the data on the third party website is current and not out of date.	
6. Are the data elements described in detail and documented? (If yes, what	n/a	
is the name and location of the		
document?) E. ATTRIBUTES OF THE DATA		
 Explain how the use of the data is both relevant and necessary to the purpose for which the system is being designed? 	There is no system that CPSC is designing.	
2. For electronic systems, if the data is	Data is not being collected nor consolidated	
being consolidated, what controls are in place to protect the data from		
unauthorized access or use? Explain. 3. How will the data be retrieved? Can it	Data is publicly available and will be searched for using a publicly available search	
be retrieved by a personal identifier? If yes, explain and list the identifiers that will be used to retrieve	engine. The only identifier is a user's self-selected user id and personal choice as to what information to share in their profile.	
information on the individual.		
4. What opportunities do individuals have to decline to provide	They must comply with Etsy.com user terms of service agreement over which the government exerts no control.	
information or to consent to		
particular uses of the information?		
F. MAINTENANCE AND ADMINISTR		
 What are the retention periods of data in this system? 	We have no system. All data retention is done by the third party website.	
2. What are the procedures for	n/a	
disposition of the data at the end of		
the retention period? How long will		
the reports produced be kept?		
Where are the procedures		
documented?	n/a	
For electronic systems, will this system provide the capability to	1¥a	
identify, locate, and monitor		
individuals? If yes, explain.		
4. For electronic systems only, what	n/a	
controls will be used to prevent		
unauthorized monitoring?		
 Is this system currently identified as a CPSC system of records? If so, under which notice does the system 	No.	

operate?			
6. If the system is being modified, will the Privacy Act system of records notice require amendment or revision? Explain	n/a		
G. ACCESS TO DATA			
1. Who will have access to the data in the system? (e.g., contractors, managers, system administrators, developers, other).	Information is publicly available.		
 What controls are in place to prevent the misuse of data by those having access? (Please list processes and training materials.) 	Controls managed by third party website		
3. Who is responsible for assuring proper use of the data?	Third party website		
4. Are contractors involved with the design and development of the system and will they be involved with the maintenance of the system? Are contractors involved in the collection of the data? If yes, were Privacy Act contract clauses inserted in their contracts and other regulatory measures addressed?	No.		
5. Do other systems share data or have access to the data in the system? If yes, explain. Who will be responsible for protecting the privacy rights of the public and employees affected by the interface?	No.		
6. Will other agencies share data or have access to the data in this system? If yes, how will the data be used by the other agency?	No.		
7. Will any of the personally identifiable information be accessed remotely or physically removed?	No.
