25-A-00001	11/05/2024	Outdoor Power Equipment Institute, Inc.	Appeal	OPEI respectfully appeals the CPSC's constructive denial of its request for videos, photographs, and data from the specified vehicles tests that are within the CPSC's possession. CPSC regulations require that a partial denial of a FOIA request contain a "reference to the specific [statutory] exemption . . . authorizing the withholding of the record" and "a brief explanation of how the exemption applies to the record withheld." 16 C.F.R. § 1015.6(b)(2). The CPSC response does not acknowledge the partial denial of OPEI's request, much less identify an applicable FOIA exemption and explain why the exemption applies to the withheld records. Ex. A. The CPSC should reconsider its partial denial of OPEI's request.	D(12)	Completely Reversed/Remanded	12/05/2024

25-F-00066	10/16/2024	Pacific Legal Foundation	FOIA	<p>Hello, I am researching product bans and recalls from the CPSC, with a specific focus on baby/kid products. I am requesting two pieces of information. First, I would like the product safety assessments (PSAs) and in-depth investigation reports (IDIs) for all baby/kid product bans and recalls from 1973 (or as far back as is feasible) to today. Second, I would like to know what objective standards the CPSC uses to determine whether to ban or recall a baby/kid product. What objective criteria does the Commission employ in determining whether to ban or recall a baby/kid product, and does the Commission use the same criteria equally for all products or does the Commission use different criteria on a product-by-product basis? Or, alternatively, does the Commission not have any objective standards on which to base recalls and bans of baby/kid products? Please let me know if there's anything I can do to clarify these requests. Thank you very much. These hair dryers were made by Shenzhen Jiuxiang Electric Appliance Co., Ltd., a manufacturer that follows strict safety standards like ISO9001. The products meet UL 859 and FCC safety rules, confirmed by tests from Shenzhen WST Testing Co., Ltd. I would like to see any test results or evaluations conducted by the CPSC on these products that led to the detention.</p> <p>The shipment included nine packages, but only seven were detained, while two were cleared and released. All packages were identical, so I need clarification on why some were held while others were not. This inconsistency suggests there may have been an oversight during the review process.</p> <p>The hair dryers include immersion protection features required by UL 859 and UL 1727 standards, which prevent electric shock if they come into contact with water. I would like to see any documentation showing how CPSC determined whether these safety features were acceptable.</p> <p>The products also follow the labeling rules in the Consumer Product Safety Improvement Act (CPSIA). They include tracking labels with clear details about the manufacturer, production date, and batch number. I request any records about whether these labels met the CPSC's requirements.</p> <p>I would like copies of all communications about this shipment, including any discussions between CPSC agents about the decision to detain the packages.</p> <p>Finally, I would like clear guidance on what steps are needed to have the detained products reviewed and released. 25-F-00160	11/25/2024	Government Accountability Project	FOIA	From June 1, 2023 through January 1, 2024, I request a sample of up to 10 completed FOIA case files from your office's FOIA tracking system where scope clarification occurred. Each case must have all of: (1) a written agency response seeking clarification about the scope of records sought; (2) a written requester response that clarified the request; (3) a final determination letter; and (4) a case closure date within the specified date range. For each of these case files, I seek only: (1) the initial FOIA request; (2) the agency's scope clarification letter (or email or similar record); (3) the requester's clarification response or the request as it was ultimately processed; (4) and the final determination letter. Specifically, for a sample of requests where clarification was needed, I'm looking for the original request, the rationale for clarification, and the clarified request. I am studying how agencies and requesters work together to clarify and refine requests, so I need only the substance of these communications, not any personally identifying details. To reduce processing time and protect privacy: please exclude any Privacy Act requests, cases where clarification was sought solely about fees, and cases where the requester never responded with clarification. And please redact all personal information (names, addresses, emails, phone numbers). If your office cannot find 10 completed case files with these criteria, please send as many case files as you can find that do.	(b)(6)	Granted/Denied in Part	12/27/2024
