CPSC FOIA Log - FY23/Q3

Request ID	Received Date	Organization	Request Type	Request Description	Exemption Cited	Final Disposition	Closed Date
23-A-00007	4/6/2023	NBC News	Appeal	Appeal from denial of expedited processing because "there is a clear urgency for the public to have access to records that can shed light on the CPSC's investigation and response to an imminent and ongoing safety hazard."	-	Completely Affirmed	5/4/2023
23-A-00008	5/5/2023	Rolnick Kramer Sadighi LLP	Appeal	Appeal from 7(A) response to request for Peloton Tread records.	(b)(7)(A)	Completely Affirmed	6/1/2023
23-A-00009	6/5/2023	Villanova University Charles Widger School of Law	Appeal	DMPs denial	(b)(7)(E)	Partially Affirmed & Partially Reversed/Remanded	7/3/2023
23-A-00010	6/20/2023	-	Appeal	I have filed 2 FOIA requests to obtain information. My first request 23-F-00444 was denied because I was seeking a name and not a record. My second request 23-F-00457 indicated I was seeking a full record of the rebuttal statement to my CPSC complaint 20230422-D77A4-2147347946 with the expressed importance of knowing who submitted the statement. I also requested 'expedited' due to trial on 6/23/23. My expedited request was denied as my Civil trial where I am seeking to hold Harbor Freight accountable and needed to obtain this evidence was deemed to not be a "compelling need". The FINAL RESPONSE to my FOIA request was directing me to the Saferproducts.gov website to view the rebuttal statement. This does not contain the information I requested and the CPSC should be aware of this because I clearly stated what I was asking for and the need for it. I have replied to the CPSC agent Korinne Super who made this final determination to my request asking to reconsider based upon what I am requesting but I did not get a reply. 23-F-00389	4/24/2023	-	FOIA	Per Freedom of Information Act (FOIA), I am requesting the Monthly Progress Report Submission for the company 'Fitbit' ( https://www.fitbit.com ) for the electronic device 'Force' and/or the Corrective Action Plan (CAP) for any information related to the actions taken by Fitbit in order to address the Voluntary Recall. Please Refer to https://www.cpsc.gov/Recalls/2014/Fitbit-Recalls-Force-Activity-Tracking-Wristband. Recall No: 14-129, Recall Date: March 12, 2014 for models: Model No. FB402BK, FB402BKS, FB402SL and FB402SLS. Based upon my research, I do not see any information related to the company 'Fitbit' and the device 'Force', nor is there any MPR available online. I am able to download the MPR-Recalls Prior to August 1-2022 and MPR-Recalls August 1 2022 to Present; however, I do not see any corrective actions done by Fitbit. Per research, the Fitbit Force is under Voluntary Recall; however, there is no information available that I could find to determine what type of actions they have taken in order to address the recall. In addition, per research on various online websites, it looks like Fitbit has not been providing substantial reimbursement for submitted Fitbit Force to consumers. Some consumers have waited 3 months, 6 months, up to a year, and yet there is still no reimbursement for the product. There also seems to be no statement pertaining to a product recall limit per consumer. Per Remedy, Fitbit is supposed to provide a refund to all consumers who have submitted the device in the amount of \$130.	(b)(4);(b)(3):CPSA Section 6(a)	Granted/Denied in Part	5/19/2023

23-F-00454	6/8/2023	Portable Generator Manufacturers Association	FOIA	I am requesting additional information regarding the following CONTAM simulation. Page 31 of the CPSC "Briefing Package on Assessment of Portable Generator Voluntary Standards' Effectiveness in Addressing CO Hazard, and Information on Availability of Compliant Portable Generators", dated February 16, 2022 states: "Simulation of a baseline non-CO-mitigation generator (i.e., a generator with no CO shut-off feature or CO emission-rate limitation) were run for each of the houses/structures. Due to all the assumptions used in simulations, there were several structure/generator-size simulations that yielded fewer fatalities than what appeared in the incident data. For these instances, the fatalities were scaled up to the actual known numbers. This same scaling factor was applied to each of the VS generators to equalize the results." 1. We request the baseline non-CO-mitigation generator CONTAM simulation results for all simulations performed for the briefing package analysis. 2. We request the tabulated scaling factors applied to the baseline and VS generator scenarios. 3. We request all files used to tabulate the Fatality outcomes summarized in Table 6 on page 18 of the Briefing Package, including, but not limited to: source code files, spreadsheets, notes containing any manual calculations, and all documentation applicable to these computations. 23-F-00456	6/8/2023	-	FOIA	<p>This is a request under the Freedom of Information Act ("FOIA") relating to Generac Holdings Inc. ("Generac"). My law firm [REDACTED] represents Court-appointed [REDACTED] in a pending securities fraud class action against Generac and certain of its executives in the United States District Court for the Eastern District of Wisconsin. One of the issues in our case is whether Generac and its executives committed securities fraud by making false and/or misleading statements regarding known product defects associated with Generac's SnapRS device. SnapRS is a switch device intended to cut off solar power that's being transferred from solar panels to a Generac solar power storage unit called PWRCell. U.S. Consumer Product Safety Commission ("CPSC") records concerning Generac, Generac's SnapRS device, and Generac's PWRCell storage unit are relevant to the claims in our case, particularly given the volume of SnapRS-related complaints provided to CPSC. As such, we respectfully request the following: (1) All records, reports, documents, communications, and information in the possession of CPSC relating to Generac during the time period of January 1, 2021 through present; (2) All records, reports, documents, communications, and information in the possession of CPSC relating to Generac's SnapRS device during the time period of January 1, 2021 through present; (3) All records, reports, documents, communications, and information in the possession of CPSC relating to Generac's PWRCell solar power storage unit during the time period of January</p>	(b)(4);(b)(5);(b)(6);Not Responsive;(b)(3):CPSA Section 25(c);(b)(3):Exempt on 36(b)(5);(b)(3):CPSA Section 6(a)	Granted/Denied in Part	9/21/2023
