Their wrong labeling that their mattress cover was washable and negligence in not listing the ingredients on the label has caused irreparable damage to our home, our health and our vehicles. We have been displaced from our home for over a month, have had to throw away 80% of our belongings, have medical documentation dating back a year due to the fiberglass and the other substances. The remediation process is costing us tens of thousands of dollars. We've lost our HVAC system, our brand new washers and dryers and brought our newborn son home, to a toxic environment due to the negligence and defective product sold by NECTAR. I have recorded proof from the company, admitting to it as well as insurance claims and have filed with a law firm.
