All documents reflecting the appointment of designees responsible, or any other delegation of authority, for evaluating the continued employment of probationary/trial period employees at your agency. To be clear, the documents Democracy Forward Foundation is here seeking include, at least in part, reports on actions already taken and appointments of designees the agency has already made. These components of the responsive documents and the identities of designated senior officials are consequently neither predecisional nor deliberative, and Democracy Forward Foundation expects that they are subject to substantial disclosure. This is further a matter of significant public interest where any privacy interests of designee officials are de minimis, and would, in any case be outweighed by the public interest in disclosure. This request seeks records from April 24, 2025 until the date of the search.	-	-	-

Under the Consumer Product Safety Act, Congress expressly empowered the Commission to delegate its authorities to officers and employees of the agency to maintain continuity of operations. This statutory authority is broad, allowing the Commission to delegate all its powers – for example, enforcement, regulatory, and administrative functions – to the Chairman and agency staff, with the sole exception of certain subpoenas. With these delegations in place, CPSC anticipates no impediment to our work going forward, including with respect to investigations. The agency has a strong, long-standing relationship with the Department of Justice, and we will continue to coordinate closely to protect American consumers, preserving the full force of our investigatory and enforcement tools.	-	-	-
