TRANSMITTED VIA EMAIL

Dan DeSimone  
ASTM F15.17 Stationary Activity Centers Subcommittee Chair  
ASTM International  
100 Bar Harbor Drive  
West Conshohocken, PA 19428

Dear Mr. DeSimone:

As part of CPSC's<sup>1</sup> review process of the update to ASTM F2012-24, *Standard Consumer Safety Specification for Stationary Activity Centers*, the Commission published a Notice of Availability (NOA) in the *Federal Register* and a request for comment on whether adopting the revised voluntary standard would improve the safety of stationary activity centers. 90 Fed. Reg. 6,844.

The Commission received one comment on the NOA. The anonymous commenter identified formatting errors in the newly added Figures 11-14 which do not comply with the requirement in section 8.4.4.<sup>2</sup> In particular, the commenter identifies that:

- (1) The exclamation marks in the figures should be orange (instead of white); and
- (2) The bottom of the solid triangle should be on the same level as the word "WARNING."

Staff asks the subcommittee to address the comment by balloting revised example warnings in ASTM F2012-24 that conform with the applicable sections of ANSI Z535.4 – 2011, *American National Standard for Product Safety Signs and Labels*, as required by section 8.4.4. This would not affect the Commission's review of the recent update to the standard.

Staff thanks the subcommittee for its continued efforts to improve the safety of consumer products and looks forward to working with the subcommittee to address these latest comments.

---

<sup>1</sup> The views in this letter are those of the staff and have not been reviewed or approved by, and may not reflect the views of, the Commission.

<sup>2</sup> Comments on the NOA can be viewed at: <https://www.regulations.gov/document/CPSC-2018-0015-0005/comment> and the specific comment is posted at <https://www.regulations.gov/comment/CPSC-2018-0015-0006>.
