

## Lithium Ion Safety Seminar -- Shenzhen May 2017

In cooperation with the China Council for the Promotion of International Trade (CCPIT), UL Standards, and the International Federation of Inspection Agencies, CPSC staff conducted a training seminar for lithium-ion battery manufacturers, product developers, and designers in Shenzhen, China. The free seminar focused on the safe application of lithium-ion batteries in consumer products and discussed issues such as industry consensus requirements and testing, and consideration of safety as a priority in innovative design.

Lithium-Ion Battery Safety Standards for Consumer product Import into the United States
