Summary of Meeting:

This task group was formed to discuss the potential development of a new standard for children's beds. The task group reviewed the latest draft with revisions based on ASTM F1427, *Standard Consumer Safety Specification for Bunk Beds*. Participants reviewed the scope, references, definitions, structural integrity requirements, and warnings. The latest version of the draft standard will be placed in an ASTM collaboration area for further review and edits before the next meeting.

Next Steps:

Future task group meetings are expected to take place the third Thursday of every month.
