### Summary of Meeting:

Public Input for the next edition to NFPA 30 (2026) closes on June 4, 2024. This was a pre-first draft meeting of the Storage and Warehousing Technical Committee of NFPA 30 to discuss task group assignments and finalize work topics to be considered at the first draft meeting.

The committee established several task groups to work open issues from the previous revision cycle. The task groups all focused on commercial and industrial issues.

### Next Steps:

The first draft meeting was not scheduled but is expected in September and it is expected to be in person. First draft is expected to be published on March 31, 2025. Public comments on the first draft will close on June 3, 2025.
