## Freedom of Information Act (FOIA) Logs

Request ID	Request Description	Request Type	Organization
<a href="#">21-A-00003</a>	"If the CPSC's position is that 6(e)(1) requires a blanket denial of my request, the agency should still, then, release any and all responsive records to me with the records entirely exempt. But if it finds that any information at all from those reports can be reasonably segregated and released per the requirements of FOIA, then it must do so. If the agency believes the initial response is justified, I further argue that it should release the withheld documents notwithstanding their exempt request [because t]he public interest in their release outweighs the public interest in withholding them[.]"	Appeal	Consumer Reports
<a href="#">21-A-00004</a>	First, the withholding of "all records" is a blanket, overly broad withholding that is not permitted by law. Second, the CPSC did not state how, for each request and each record withheld, disclosure would interfere with any pending investigation. And finally, it is likely that at least some of the records covered by my request were submitted by the subject of the investigation, and thus cannot be withheld under Exemption 7(A).	Appeal	CNN
<a href="#">21-F-00140</a>	Request any and all documentation regarding analysis of benzene in products manufactured by R.M. FY21 Q2

21-F-00147	<p>Hello, I am writing to request further details surrounding the below fatal incidents mentioned in the CPSC report: "Toy-Related Deaths and Injuries Calendar Year 2019", authored by Angie Qin. This information is used only for safety research and the creation of product specifications; as such I do not need any Personal Identification Information (PII). 1. 3 incidents involving choking on a toy- rubber ball, toy portion of a pacifier, toy dart) (incident from 2017-2018) 2. 1 incident involving ingestion of a small plastic ball (incident from 2017-2018) 3. 1 incident involving strangulation on a kite string (incident from 2017-2018) 4. A 16-month-old girl placed a small, round, toy object in her mouth and inhaled when the mother reached to remove the toy. 5. A 20-month-old boy with a history of chronic bronchitis became unresponsive at home...An autopsy revealed that a small, blue plastic ball obstructed the victim's airway. 6. A 3-year-old boy was found cold and unresponsive in his bed... An autopsy revealed a small, gray plastic, rock-shaped toy was completely blocking the victim's proximal airway. 7. A 2-year-old girl was heard choking by her mother, who could not dislodge the object and called 911. The mother stated she believed that her daughter choked on a pink toy, diamond-shaped lip gloss ring and that the victim disassembled the toy before swallowing it. Any questions, please don't hesitate to ask. Sincerely, [REDACTED] + [REDACTED] (Date Range for Record Search: From 01/01/2017 To 12/31/2020)</p>	FOIA	Mondelez International

21-F-00283	<p>I am interested in the population of CPSC recalls from 10/1/2000 to 09/30/2020 (the date range for which you have shared with me the Recall Number values that have been fast-tracked; 20-F-00145 and 00-F-00245). SPDB's (<a href="https://www.saferproducts.gov/SPDB.zip">https://www.saferproducts.gov/SPDB.zip</a>) Recalls.csv has four columns: Title, Date, Summary, and Recall Number. But the CSV file does not have columns such as Remedy Type, Manufacturer's Name, etc. Alternatively, I can visit <a href="https://www.cpsc.gov/Recalls">https://www.cpsc.gov/Recalls</a>, click on the bulb icon, and provide the "After" and "Before" dates to obtain the list of recalls. I can then click on each link on the results web page, and manually copy-paste the values of each field. Interestingly, if I click on "Recalls CSV" link at <a href="https://www.cpsc.gov/Recalls">https://www.cpsc.gov/Recalls</a>, I download recalls_recall_listing.xlsx that lists the top 20 recalls as rows and 14 columns, A through N: Recall Number, Date, Recall Headline, Name of Product, Description, Hazard, Remedy Type, Units, Conjunction With, Incidents, Remedy, Sold At, Distributors, and Manufactured In I searched <a href="https://www.cpsc.gov/Recalls">https://www.cpsc.gov/Recalls</a> for recalls that have Recall Date between these two dates and I receive 6,113 results - similar to what SPDB's Recalls.csv lists. Question/Request: Can CPSC provide me a recalls_recall_listing.xlsx with these 6,113 rows and the same 14 columns that clicking on "Recalls CSV" produces? Thank you for your kind consideration.
