ITEM

Exemption request from Abbott Laboratories for Ogen
(PP. 74-40) (Memo 10/21/74 to Commissioners from Office of the
Secretary).

DECISION

The Commission approved the request to propose Ogen for
exemption from the child protection packaging standards for human
prescription drugs in oral dosage form, because reasonable grounds
were presented to show that special packaging is not necessary to
protect children from serious personal injury or serious illness
from the substances as packaged.
