(Briefing package dated September 30, 2020, OS# 0032)

DECISION:

The Commission voted unanimously (4-0) to approve publication of the notice, as drafted, in the *Federal Register* to issue a notice of proposed rulemaking (NPR) to amend the Standard for the Flammability of Mattresses and Mattress Pads (Standard), 16 CFR part 1632. The Standard sets forth a test to determine the ignition resistance of a mattress or mattress pad when exposed to a lighted cigarette. The NPR proposes to revise the ignition source cigarette specified for use in the Standard's performance tests, Standard Reference Material cigarette SRM 1196, which is no longer available for purchase, with its replacement, SRM 1196a.
