ITEM

Possible Amendment of Repurchase Regulations under  
the Federal Hazardous Substances Act

DECISION<sup>c</sup>

The Commission endorses the concept of amending the FHSA Repurchase Regulations so that they may be more reasonably applied to complex products such as bicycles and cribs which may be the subject of banning regulations. Appropriate modifications could serve the best interests of consumers as well as manufacturers, distributors and retailers. The staff is instructed to prepare specific proposed amendments for the Commission's consideration.
