1. STATEMENT OF WORK

A. Background Information

The U.S. Consumer Product Safety Commission (CPSC) is responsible for protecting the public from unreasonable risks of injury associated with consumer products. Thus, the Commission has established a network of injury surveillance systems to obtain data on product-related accidents, i.e., the National Electronic Injury Surveillance System (NEISS). Data from these systems are closely monitored by CPSC staff to detect products with safety problems. Information on products involved in a fatality are of particular importance in that they enable the Commission to measure the magnitude of death problems relating to those products under the Consumer Product Safety Act, 15 U.S.C. 2051 et. seq.

The Medical Examiners and Coroners Alert Program (MECAP) was designed by CPSC to obtain information on product-related deaths at the earliest possible moment from the most knowledgeable sources. Information collected from this system is particularly valuable since medical examiners and coroners can frequently provide information on the type of consumer product associated with the incident, the accident scenario, and the cause of death, while the product is still available for examination and/or evaluation. This information system has assisted in identifying a number of serious product hazards that have been addressed by the Commission.

B. Objective of the Program

The objective of this program is to collect information on consumer product-related fatalities occurring in those States/Counties having a centralized system of medical examiners/coroners.

C. Statement of Work

Independently, and not as an agent of the U.S. Government, the Office of the Chief Medical Examiner (also referred to as the "Contractor"), agrees to provide to CPSC reports of fatalities involving consumer products, as specified below:

1. The Contractor agrees to review and screen all fatality cases within its jurisdiction to determine which cases are "in-scope" (i.e., within the scope of CPSC's jurisdiction) and which are "out-of-scope" (i.e., outside CPSC's jurisdiction). In-scope cases shall be those accidental deaths in which a consumer product played a role in the accidental death scenario. All in-scope cases within the Contractor's jurisdiction are to be reported to CPSC under this contract.
2. The term "consumer product" is defined as any article, or component part thereof, customarily produced or distributed for sale to, or for the use, consumption, or enjoyment by a consumer in or around a household or residence, a school, in recreation, or otherwise. It does not include the following articles or products, which are under the jurisdiction of other federal or state agencies:

- a. Tobacco and tobacco products
 - b. Licensed motor vehicles and their equipment
 - c. Pesticides, fungicides and herbicides
 - d. Aircraft and their equipment
 - e. Boats and their equipment
 - f. Drugs, medical devices, cosmetics, and food
 - g. Firearms and ammunition
3. Information to be provided in the reports to the Commission under this contract shall include:
- a. Medical Examiner/Coroner Case Number;
 - b. Date of accident;
 - c. Date of death;
 - d. Age and sex of the victim;
 - e. Type of consumer product involved (including brand name and information on product involvement, if available);
 - f. The location involved in the incident;
 - g. A scenario depicting sequence of events;
 - h. Information as to whether the product involved in the accident is available for examination or testing;
 - i. Name, phone number, and county of medical examiner reporting the incident; and
 - j. Cause of death.

A copy of the format to be used for these reports is attached.

4. If any incident involves a product that malfunctioned, (i.e., defective) or did not operate as intended, the Office of the Chief Medical Examiner agrees to call the report in immediately to the CPSC Contracting Officer Representative (COR), at (800) 638-8095.
5. After Commission receipt of a written or oral death report, a CPSC investigator may conduct an investigation to obtain details on the accident scenario. When this occurs, the investigator will contact the Medical Examiner/Coroner for victim identification and/or authorization to investigate the incident.
6. Payment will be made only for written or oral reports of "in-scope" cases, i.e., those reports involving consumer products within the jurisdiction of the CPSC.

D. Period of Performance

1. Base Contract: Performance of work shall begin on December 7, 2016, and shall not extend beyond July 31, 2017.
2. Option 1: Performance of work shall begin on August 1, 2017, and shall not extend beyond July 31, 2018.
3. Option 2: Performance of work shall begin on August 1, 2018, and shall not extend beyond July 31, 2019.

E. Price

The cost of each medical examiner's/coroner's report shall be the price as stated in each applicable line item.

F. Contracting Officer Representative (COR)

1. The COR has been identified on page one of this document. This individual shall be responsible for the overall management of the technical provisions contained herein.
2. The COR is responsible for:
 - a. Monitoring the Contractor's technical progress, including surveillance and assessment of performance, and notifying the Contracting Officer within one week when deliverables (including reports) are not received on schedule in accordance with Paragraph G, Delivery.
 - b. Performing technical evaluation, as required, and assisting the Contractor in the resolution of technical problems encountered during performance; and
 - c. Reviewing and accepting of all items required by the Purchase Order.
3. The COR is not authorized to and shall not:
 - a. Make changes in the scope of work, Purchase Order schedules and/or specifications.
 - b. Direct or negotiate any change in the terms, conditions, or amounts cited in the Purchase Order; and
 - c. Take any action that commits the Government or could lead to a claim against the Government.
 - d. A clear distinction is made between Government and Contractor personnel. No employer-employee relationship will occur between government employees and contractor employees. Contractor employees must report directly to their company (employer) and shall not report to Government personnel.

G. Delivery

Incidents involving accidental death(s) are to be reported to CPSC by telephone and by mail within three (3) days of receipt/copying. Reports may also be e-mailed to the CPSC COR or reported on-line.

1. To report a case by telephone (see III.D. above), the Contractor shall call (toll free) 1-800-638-8095, and say, "THIS IS A MECAP REPORT". The Contractor will then be placed in contact with the CPSC COR, who will ask for specific information.
2. Written reports shall be mailed or faxed (toll free) to the following address and/or facsimile number:

The total expended amount under the contract shall not exceed the grand total, nor is the contractor entitled to perform work and expect reimbursement beyond that amount, without approval of the contracting officer. The COR must provide the Contracting Officer with a revised quantity, "Not to Exceed" total, and funding to process a modification to the contract. The contractor is not authorized to invoice and/or receive payment for additional work above the specified contract total without receipt of a formal, written modification to the contract.
